

VT
Tee, Corner
Omega corner

Applications

1. Connecting three sheet piling walls.
2. Corner connection similar to the V 20.
3. Similar to Omega 12 corner with swivel range of $\sim 70^\circ$ to $\sim 190^\circ$.
4. Suitable for circular driving with single piles (when working with double piles, a single pile should be inserted between the double piles on one side of the swivel range).

Typical Properties

Steel grade:	S 355 GP or higher*
Weight:	17,7 kg/m
Length:	10,0 m / 13,8 m
Length tolerance:	+/- 200 mm
Thickness:	8 mm / 10 mm*

* on request

Certificate

Installation Guidelines

1. Please review proper interlocking examples as shown.
2. Thread the connector into the interlock while the sheet pile is out of the ground.
3. Adjust the connector to the appropriate position.
4. Tack or spot-weld the connector in place (typically a 100 mm weld attaching the connector to the sheet pile at the top is sufficient).
5. Drive/extract the sheet (with the connector attached) as you would normally.
